Re: *United States v. Kadar*, No. 3:15-MJ 19; *United States v. Kadar*, No. 6:17-MJ-1361

Gentlemen:

I represent individuals who, while interested in protecting their privacy, would like to draw your attention to evidence that affects the two above-referenced indictments. The evidence they have

assembled suggests that the defendant in the above indictments, Michael Ron David Kadar (“MRDK”), did not commit the 2017 crimes alleged in the Florida indictment against the Jewish Community Centers (JCC), that those crimes may have larger institutional sponsorship in the Israeli government, and should warrant further investigation by the FBI and Justice Department.

The individual arrested in Ashkelon, Israel on March 23, 2017, and identified in the indictments as MRDK, is described in news reports as an [18-year old man](#). The man’s lawyer has reported that his client has made [5 suicide attempts while in jail](#).

My clients have evidence that “Michael Ron David Kadar” is, in fact “[Michael R. Kadar](#),” (“MRK”) who is 27 years old, and until March 21, 2017, resided in New Lenox, Illinois. The photos below are from MRK’s [Facebook page](#):

The following photo is of the man arrested in Israel (Israel has banned publication of his identity or complete facial features):

MRK has a lengthy criminal history (available on the [Will County, Illinois, website](#)), primarily for low-level infractions, e.g.,

Among his crimes is a May 3, 2014, charge for domestic battery. In court records, the Illinois state judge admonished MRK as to “United States Citizenship.” See *Padilla v. Kentucky*, 130 S.Ct. 1473 (2010) (Sixth Amendment requires that foreign national defendants be warned that guilty plea could lead to deportation):

You should be able to confirm that Illinois-based MRK holds Israeli citizenship.

On January 30, 2017, MRK was sentenced in Illinois to 94 days for drug possession, which with credit for time already served resulted in his incarceration until March 18, 2017. MRK's last Facebook post was made three days later, on 3/21/17, shortly after his release from jail. On or about 3/22/17, you should be able to confirm that MRK flew from Chicago to Tel Aviv. On March 23, 2017, MRDK was arrested in Ashkelon, Israel. My clients believe the individual arrested was MRK, recently released from jail in Illinois. If so, then during most of the 2017 period for which MRDK is accused of having made the Florida JCC bomb threat phone calls, he was incarcerated in the United States. He could not have made those calls.

If the indictee is, in fact, MRK, who could not have made the JCC bomb threats, who did? My clients believe the chief candidate is his mother, [Dr. Tamar Kadar](#), an Israeli scientist who studies chemical weapons at the top-secret [Israel Institute of Biological Research](#). Dr. Kadar lives in the Ashkelon apartment in which the arrest was made. Here is a photo of Dr. Kadar:

Here is a [video of Michael Kadar's mother](#) taken after his arrest in Ashkelon. The video shows that his mother has a speech impediment. [Kadar's Florida indictment](#) notes that the bomb threat recordings show "a distinct and pronounced speech impediment" (page 24). Many of the bomb threats were made by a female voice. Dr. Kadar is female.

Another intriguing line of inquiry relates to one Robert Kadar, also a resident of the Illinois household in which MRK lived when not incarcerated. This LinkedIn profile refers to an Israeli Brigadier General Robert Kadar:

Ashkelon Area, Israel - Attended Ulpan Beit Canada

I'm **Brigadier General Robert Kadar** daughter just returned home to Israel, interested in military technology, and everything is hi-tech. After learning of the ...

Here is the [only photo of Robert Kadar](#) available. One can compare Robert Kadar to the [silhouette of Michael Kadar's father in this video](#) and note the distinctly-shaped ear lobes, frizzy hair, and glasses.

It is possible that Dr. Kadar/Brigadier General Kadar and/or their Israeli government employer got wind that the Ashkelon-based bomb threat operation was in jeopardy because the FBI had determined that the JCC bomb threats originated from Israel. The operation needed a fall guy. MRK, a petty criminal and family ne'er do well, was an attractive candidate. MRK was given a plane ticket to Israel, departing Chicago on or about March 22, a day after his last Facebook post. You may find that Robert Kadar was on the same plane. Upon his arrival in Israel, on March 23, Israeli police arrested MRK at Dr. Kadar's apartment. His age was artificially reduced so that he could be described as an innocent "teen" and charged as a juvenile, thus justifying Israel's refusal to extradite him.

My clients are confident that the United States government has the resources to pursue and will pursue these lines of inquiry:

1) Did MRK fly from Chicago to Tel Aviv on or about March 22, 2017? If so, where is he now? Did Robert Kadar accompany MRK on the same flight?

2) If MRK has disappeared and been replaced by a mysterious 18-year old boy who allegedly has repeatedly tried to commit suicide (and who may conveniently succeed in the near future), then who made the 2017 JCC bomb threat calls? MRK, lately of Illinois, surely could not have committed these crimes from a U.S. jail.

These are questions that deserve answers in the pursuit of justice. The Justice Department also has a duty to correct or clarify its indictment if those answers are inconsistent with the indictments.

Very truly yours,

/s/
